

Smart Gateway

Product instruction manual

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body

Product Specifications

Product name	Bluetooth Gateway
Adapter output	5V === 1A
Working temperature	-10°C~55°C
Working humidity	10%~90% RH (no condensation)
Wireless technology	2.4G Wi-Fi
	Bluetooth4.2
Dimensions	60X60X15mm
Net weight	33g

Packing List

- Bluetooth Gateway x 1
- User Manual x 1
- Data cable x 1

Preparation For Use

- 1 In the App Store or Google Play,search for "Smart Life" or scan the QR code on the manual to download and install the smart App.
- 2 Open the Wi-Fi of your phone, click on the "+" in the upper right corner, and select " Gateway";
- 3 The gateway to be added will automatically appear, and please follow the instructions in the App.

【Smart Life】 App

Product Description

it is a mini BLE Gateway . It consists of a highly integrated Wi-Fi module, low power-consuming BLE module, and PCBA. It can be connected to the Smart Life app for device adding, reset, third-party control, and BLE group control, meeting smart home requirements

1. Quick connect mode

Turn on the mobile phone's location and Bluetooth, the phone needs to be connected to 2.4G WIFI network. When the product is plugged in, the two lights will light up. Press the button for 8 seconds, release and wait for 10-20 seconds until the red light flashes. When the red light flashes, the mobile app will pop up the product icon you want to connect to. Simply click on the icon to connect.

2. Manual distribution network mode

Turn on the mobile phone's location and turn off Bluetooth, the phone needs to be connected to 2.4G WIFI network. Press the button for 8 seconds, release and wait for 10-20 seconds until the red light flashes. Find the gateway in the APP and click on the multi-function gateway to proceed to the next step. The option will appear in the upper right corner. Check the line for hotspot distribution network (compatibility mode). Click on the line to confirm that the indicator light flashes slowly, and then click on the next step. The device hotspot will appear. You can search for the network name you want to pair according to the hotspot prompt to connect. Then select the prompted network name and return to the APP to connect to the device interface.
